Textile-Based Product Solutions

Waxed cotton, coated and laminated fabrics British Millerain was established in 1880 in Halifax, Yorkshire in the UK. Most noted for the traditional waxed and oiled cottons originally developed for and made popular by early seafarers, it maintains an unsurpassed reputation as a leader in waterproofed fabrics.

Sliver knit Microfabrics® Founded over 50 years ago, Glenoit is the largest domestic manufacturer of premium quality sliver knit pile fabrics. Revolutionary fine gauge, high-speed computerized knitting machines, unparalleled jacquard capabilities along with creative, technically advanced design, research and development departments keep Glenoit ahead of their competition.

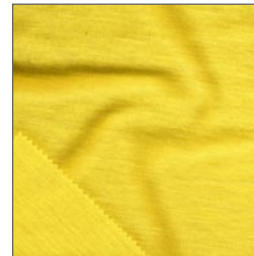

Sliver knits and faux furs, garment production Nice Gain is based in Nanjing, near Shanghai, China. Founded in 1995 for the manufacture of sliver knit pile fabrics, it has grown to become a leading supplier of top quality pile and finished pile garments. Nice Gain is owned and operated by a US-educated staff well versed in product development and the operation of state-of-the-art equipment.

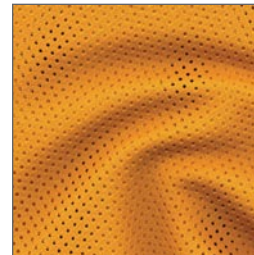

Premium fleeces, recycled fleeces, microblends, laminates and micro-polyesters. Kingwhale Industries is a totally vertical resource program—from chemical raw materials to the finished garment, in both wovens and knits. They are driven by research and development and also offer top quality garment production in their own factories in Taiwan, Vietnam and (duty-free) Jordan. Fully committed to environmental responsibility, Kingwhale's facilities have received certification by bluesign® Technologies and Oeko-Tex®.

Production: Garments and accessories Maintrend provides the manufacturing capabilities for Concept III's totally vertical resource program and full service package for its manufacturing customers. It offers top quality garment production in its own factories in Taiwan, Vietnam and (duty-free) Jordan garment production.

Merino and Merino blend knits Merino State is a premium collection of Merino and Merino blends from Charles Parsons. Privately owned, Parsons has been developing and manufacturing specialized textile solutions and garments for fashion apparel brands throughout Australia, New Zealand and the Asia-Pacific region since 1915.

Technical warp knits Rentex is an undisputed leader in lightweight technical warp knits. Performance yarns and fibers are incorporated in unique constructions to create user-specific fabrics that miraculously manage temperature, moisture transfer, antimicrobial and abrasion protection, stretchability, durability and are engineered for comfort.

Stay Fresh odor control technology Polygiene uses natural silver salt to treat performance textiles and other materials that come in contact with the skin. Engineered to give wearers fresh-all-day confidence, Polygiene is perfect for active people who demand natural, long-lasting odor protection. Already popular in Europe and adopted by prominent brands, Polygiene is totally safe and is both bluesign and Oeko-Tex approved.
